-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1746

1. The indicated allowability of claims 4 and 15 is withdrawn in view of the newly discovered reference(s) to Miyai et al. Rejections based on the newly cited reference(s) follow.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4-12, 14-18, 20, 21 and 56 rejected under 35 U.S.C. 102(b) as being clearly anticipated by Miyai et al. (U. S. pat. No. 5,825,470).

Re claims 1, 4, 11, 15 and 18 for example, note that Miyai is cited disclosing a stepper or scanner machine for processing microfeature workpieces, the machine comprising:

- a housing (12);
- an illuminator (26) disposed within the housing;
- a lens (col. 9, lines 62) disposed within the housing;
- a workpiece support (20) disposed within the housing;
- a cleaning device (1300, see fig. 26), a cleaning fluid supply, and a vacuum pump  
all disposed within the housing to remove contaminants from the workpiece  
support the cleaning device being operably coupled to the vacuum pump  
and in fluid communication with the cleaning fluid supply; and
- a stage (38) carrying the workpiece support, at least one of the stage and the  
cleaning device being movable relative to the other to selectively position  
the workpiece support at least proximate to the cleaning device.

Art Unit: 1746

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2, 13 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Miyai et al. in view of Nishi et al. (U. S. Pat. No.5,559,582).

Claims 2, 13 and 19 define over Miyai only in the recitation of the end effector being configured to engage the support. Nishi (see fig. 11) is cited the arrangement effector configured to engage a work support as instantly claimed. It therefore would have been obvious to one having ordinary skill in the art to modify the arrangement of Miyai, to have the end effector configured to engaged to the support as taught by Nishi, for the purpose of ensuring the complete removal of contaminants from the work support.

6. Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.
